Drilling Fluid Analytical Instruments

Roller Oven

To meet the global need for ultra-high temperature drilling fluid research, we bring out the latest model of five-axis temperature roller and also the HTD12535 aging cells that matches the oven.

Roller oven is a highly reliable high-quality ultra-high temperature drilling fluid evaluation equipment that is designed and developed based on the classic product-high temperature roller oven. Its maximum test temperature is 600°F (316°C) and it could run four 500 mL or eight 260 mL roller vessels simultaneously. It could efficiently and safely complete experimental duties under severe condition.

Aging Cells
HTD12535

Characteristics

Intelligent temperature control technique and enhanced insulation construction ensure a balanced thermal field.

Digital temperature controller maintains constant temperature during the working process;

Constant speed motor and fiberglass Teflon bearings run smoothly;

Circulating fans could ensure more stable, consistent and reliable heating;

Stainless steel roller could keep a clean working face;

Programmable timer enables unattended operation.

HTD12151

HAITONGDA

Drilling Fluid Analytical Instruments/Oil Well Cement Testing Instruments

Parameters

No.	Category	Parameters
1	Power Supply	(220±11) V, 50 Hz
2	Maximum Operating Temperature	316°C
3	Number of Samples	4 (500 mL Sample cell), 8 (260 mL Sample cell)
4	Working Volume	510×355×390
5	Net Weight/Gross Weight	93kg/107kg
6	Dimensions	700×680×720 (mm)
7	Shipping Dimensions	775×755×865 (mm)

Warranty and Service

We guarantee our products against any defects in workmanship or material for one year. Each quotation or order confirmation states terms of trade, trade agreement and warranty.

We specialize in research and manufacturing of drilling fluid, completion fluid and oil well cement testing instruments. As a company with over 40 years of history, we have years of manufacturing experience and a complete after-sales service system. We are willing to provide a complete set of laboratory equipment solutions for you.

Product Catalog of Haitongda

Drilling Fluid Analytical Instruments

- Density testing instruments
- Rheometers
- API filter press
- High temperature and high-pressure filter press
- Mixer
- Solid content testing instruments
- High temperature aging test instruments
- Frictional coefficient testing instruments
- Lubricity analytical instruments
- Shale testing instruments
- Plugging performance evaluation instruments
- Electrochemical analytical instruments
- Overall drilling fluid laboratory solution

Oil Well Cement Testing Instruments

- Atmospheric consistometer
- High temperature and high pressure consistometer
- Atmospheric curing chamber
- High temperature and high-pressure curing kit
- Ultrasonic cement analyzer
- Constant speed mixer
- Rotational viscometer
- Pressurized densitometer
- Data collection and control system
- Overall oil well cement laboratory solution
