Drilling Fluid Analytical Instruments

Drilling Fluid Mobile Laboratory

In order to adapt to domestic and foreign needs for drilling fluid testing, we bring out drilling fluid mobile laboratory to global users.

HTD31051 mobile laboratory for field fluid testing can carry all the instruments needed for testing drilling fluid to the drilling field. The laboratory is designed available for oil field environment and can be transferred to any oil field or offshore platform. The construction of the laboratory can resist particularly harsh environment and climate and it can work well no matter in broiling desert or freezing cementing field.

Drilling Fluid Mobile Laboratory
HTD31051

Characteristics

It can be equipped with any necessary instrument and equipment for drilling fluid testing;

It can be transferred to any oil-well field or offshore platform;

There is no need for re-construction and no waste to clean during the transfer.

It is for field mobile use either on drilling platform, land or trailer/guide plate;

It is easy to move and place;

It optimizes the design of drilling fluid tests;

Experimental apparatus and equipment can be changed to ensure that operators are familiar with them;

Easy to maintain and revamp (e.g. floor finish, public utilities, instruments);

Rest quarter for optional use and it can be operated for 24 hours.

The design, construction, connecting, public utility hardwares and apparatus all passed security certificate and accorded with security specifications.

Parameters

All cables and conduit

One 240 V/110 V multiple-contact transformer

A 4-way current circuit breaker for electric equipment

Four 4-foot double-end fluorescent lamps

Six 220V/15A dual power outlets

One RGS 6 paired-cable junction box

Two 2KW heaters

All instruments needed by the experiments

HAITONGDA

Drilling Fluid Analytical Instruments/Oil Well Cement Testing Instruments

Warranty and Service

We guarantee our products against any defects in workmanship or material for one year. Each quotation or order confirmation states terms of trade, trade agreement and warranty.

We specialize in research and manufacturing of drilling fluid, completion fluid and oil well cement testing instruments. As a company with over 40 years of history, we have years of manufacturing experience and a complete after-sales service system. We are willing to provide a complete set of laboratory equipment solutions for you.

Product Catalog of Haitongda

Drilling Fluid Analytical Instruments

- Density testing instruments
- Rheometers
- API filter press
- High temperature and high-pressure filter press
- Mixer
- Solid content testing instruments
- High temperature aging test instruments
- Frictional coefficient testing instruments
- Lubricity analytical instruments
- Shale testing instruments
- Plugging performance evaluation instruments
- Electrochemical analytical instruments
- Overall drilling fluid laboratory solution

Oil Well Cement Testing Instruments

- Atmospheric consistometer
- High temperature and high pressure consistometer
- Atmospheric curing chamber
- High temperature and high-pressure curing kit
- Ultrasonic cement analyzer
- Constant speed mixer
- Rotational viscometer
- Pressurized densitometer
- Data collection and control system
- Overall oil well cement laboratory solution
